Scientific Publishers, 2015. Softcover. Book Condition: New. Though many practical books are available in the market but this Laboratory Manual of Microbiology, Biochemistry and Molecular Biology is an unique combination of protocols that covers maximum (about 80%) of the practicals of various Indian universities for UG and PG courses in Bioscience, Biotechnology, Microbiology, Biochemistry and Biochemical Engineering. While preparing this laboratory manual the efforts have been made into various aspects of laboratory practices for the beginners like; the do's and don'ts of working in any laboratory, concepts and terminologies used, how to prepare the solutions/reagents. The protocols given here have been tested by authors during their long teaching experience. The book has been divided into four sections, the first one is Introduction which is subdivided into laboratory etiquette and safety, molecular, empirical and formula weight, planning a solution of a particular morality, accuracy and calibration, buffers etc. Second part is about Instruments: Principle and Precautions which elaborates various commonly used equipments needed to perform different experiments. The third part of the book is about Experiments which has all the traditional to latest experiments with principle, requirements, procedure, results and observation and precautions in three major areas of Bioscience and Biotechnology i.e. Microbiology, Biochemistry and Molecular Biology. At the end a rather comprehensive appendix is given as section four. The microbiology section contains all the basic techniques used in laboratories and industries. It also consists of some advanced microbiological experiments related to industrial microbiology. The second section deals with the basic practicals associated with carbohydrates, lipids, amino acid analysis, chromatographic techniques. Besides, other advanced techniques such as isoelectric focusing etc have also been included. As molecular biology has become an integral part of almost all biological courses, the third section of this book dedicated to all the techniques related to and...
