

Case Studies in Internal Medicine

By Atul Kakar, Atul Gogia

Jaypee Brothers Medical Publishers, India, 2014. Paperback. Book Condition: New. 236 x 156 mm. Language: English . Brand New Book. Internal medicine is the medical specialty dedicated to the diagnosis and medical treatment of adults. A physician who specialises in internal medicine is referred to as an internist. Subspecialties of internal medicine include allergy and immunology, cardiology, endocrinology, haematology, infectious diseases, gastroenterology, nephrology, oncology, pulmonology, and rheumatology (). Presented as case studies, this book discusses 29 disorders that physicians may encounter in daily practice. Each case is described in a step by step format, by history, physical examination, diagnosis techniques and treatment options. Key learning points are summarised at the end of each case. The book covers both common and more unusual cases with an emphasis on common clinical symptoms, presented in question format. Tables, flowcharts and photographs enhance the understanding of key concepts. Key points *29 case studies presenting common and unusual disorders seen in daily practice * Each case described in step by step format * Emphasis on common clinical symptoms presented in question format * Tables, flowcharts and photographs enhance learning.
