The objective of the Board's Order was to eliminate surface pools formed by rising ground water prior to the 1988-89 winter season. This report presents a summary of the filling activities at Kesterson Reservoir and an evaluation of the effectiveness of the filling in the elimination of ground water pools at the Reservoir. Description of Filling Operation Contract Summary A letter contract was issued to Dutra Construction Co., Inc. of Rio Vista, California on July 6, 1988. The contract specified the filling of an estimated 589 acres with an estimated 723,400 cubic yards of material. Ephemeral pools were to be filled on a pond priority basis, with ponds 1, 3, 4, and 6 to be filled first, followed by ponds 5 and 7, and then the remainder of the ponds. The contract required completion of the scheduled work by December 1, 1988 and included incentive payments, based on volumes of material imported, for early completion of the work. As the work progressed, modifications were made to the original contract. When the contractor demonstrated that work could be completed by the scheduled deadline, the requirement for filling based on pond priority was eliminated and the contractor was allowed to place fill in the most efficient manner. A neighboring landowner requested that material be removed from his land...
